PROFESSIONAL SUMMARY

Software Development Engineer with experience in building scalable web and mobile applications using MERN stack and modern development tools. Skilled in RESTful API development, real-time systems using WebSockets, and performance optimization. Strong foundation in Data Structures, DBMS, and backend architecture with a focus on writing clean, maintainable code.

EXPERIENCE

- | | |
|---|---------------------|
| Associate Software Development Engineer – Bridgenext, India | Oct 2025 – Present |
| <ul style="list-style-type: none">– Optimized backend API logic, reducing response time and improving system performance– Improved frontend performance by refactoring React components– Collaborated in Agile environment using Git and Azure DevOps for feature delivery and releases | |
| Trainee Software Developer – Bridgenext, India | Jul 2025 – Oct 2025 |
| <ul style="list-style-type: none">– Built reusable UI components using ReactJS to improve development efficiency– Integrated REST APIs with frontend ensuring smooth data handling– Participated in code reviews and followed industry-standard coding practices | |
| Software Developer Intern – Bridgenext, India | Jan 2025 – Jul 2025 |
| <ul style="list-style-type: none">– Developed mobile features using React Native and integrated REST APIs– Worked with Postman for API testing and debugging | |

PROJECTS

- | | |
|---|--|
| Chat Application | <i>MERN + Socket.io + TailwindCSS</i> |
| <ul style="list-style-type: none">– Built real-time chat application using MERN stack and Socket.io supporting concurrent users– Implemented JWT-based authentication and secure communication between users– Managed real-time user presence and state using Zustand and Context API– Designed scalable backend structure with proper error handling and API separation | |
| Eventora | <i>MERN + Stripe + Firebase + Wit.ai</i> |
| <ul style="list-style-type: none">– Developed full-stack event management platform with JWT and Google OAuth authentication– Integrated Stripe payment gateway for secure online transactions– Built admin dashboard with full CRUD operations, filtering, and participant management– Implemented AI chatbot using Wit.ai for automated query handling– Generated dynamic PDF summaries for event reports and tracking | |

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, SQL
- **Frontend:** ReactJS, React Native, TypeScript, Redux, TailwindCSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, WebSockets (Socket.io)
- **Database:** MongoDB, MSSQL
- **Tools & DevOps:** Git, Docker, Kubernetes, Azure DevOps, Postman
- **Core Concepts:** Data Structures & Algorithms, DBMS, System Design Basics, API Design
- **Cloud:** AWS (Learning)

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate
- Full Stack Web Development Bootcamp - Udemy
- Model Context Protocol (MCP) by Anthropic
